PMA No. PQ0594SW
Supplement No. 3
Revision No. 3
Date: May 3, 2023

NOTE: The procedures that have been accepted by the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to original parts used on type-certificated products, are also acceptable for incorporating the same minor changes on identical PMA replacement parts. The PMA holder must be able to show traceability relating to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, all subsequent minor design changes to the PMA parts must be submitted in a manner as determined by the ACO. Major design changes (reference 14 CFR §§ 21.93 and 21.97) to drawings and specifications are to be handled in the same manner as that for an original PMA.

-----End of Listing-----

NOTE: The procedures that are acceptable to the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to original parts used on type-certificated products, are also acceptable for incorporating the same minor changes on identical FAA-PMA replacement parts. The FAA-PMA holder must show traceability to the TC, STC or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, submit all subsequent minor design changes to the PMA parts in a manner determined by the ACO. TC, STC, or TSO authorization holder controls all major design changes to drawings and specifications.

Kenneth W. Hickman

Senior Aviation Safety Inspector, Manufacturing Inspection District Office
SW-MIDO-41

This Supplement is an attachment to your FAA-PMA approval letter Dated: 21 June 1989

-----End of Listing-----

NOTE: The procedures that are acceptable to the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to original parts used on type-certificated products, are also acceptable for incorporating the same minor changes on identical FAA-PMA replacement parts. The FAA-PMA holder must show traceability to the TC, STC or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, submit all subsequent minor design changes to the PMA parts in a manner determined by the ACO. TC, STC, or TSO authorization holder controls all major design changes to drawings and specifications.

Kenneth W. Hickman

Senior Aviation Safety Inspector, Manufacturing Inspection District Office
SW-MIDO-41

Part Name	Part Number	Approved Replacement for Part Number	Approval Basis and Approved Design Data	Make Eligibility	Model Eligibility
			DWG No: 173A0103-6 Rev: A Date: 11/05/1999 or later FAA-approved revisions		
RUDDER ASSEMBLY	173A0103-7	(173A0103-7)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 173A0103-7 Rev: A Date: 06/13/2000 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
RUDDER ASSEMBLY	173A0103-8	(173A0103-8)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 173A0103-8 Rev: A Date: 04/25/2002 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
ELEVATOR ASSEMBLY	183A0104-1	(183A0104-1)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 183A0104 Rev: E Date: 03/09/1999 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
ELEVATOR ASSY	183A0104-2	(183A0104-2)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 183A0104 Rev: E Date: 03/09/1999 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
ELEVATOR ASSEMBLY	183A0104-3	(183A0104-3)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 183A0104 Rev: E Date: 03/09/1999 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
ELEVATOR ASSEMBLY	183A0104-4	(183A0104-4)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 183A0104 Rev: E Date: 03/09/1999 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
ELEVATOR ASSEMBLY	183A0104-5	(183A0104-5)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 183A0104-5 Rev: B Date: 03/07/2001 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
CHORD	315A1225-507	(315A1225-507)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 315A1225 Rev: D Date: 09/18/1992 or later FAA-approved revisions	The Boeing Company	737-300 SERIES
FACE SHEET	315A2101-39	(315A2101-39)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 315A2101-39 Rev: B Date: 03/30/2001 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
FACE SHEET	315A2102-39	(315A2102-39)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 315A2102-39 Rev: B Date: 03/30/2001 or later FAA-approved revisions	The Boeing Company	737-600 SERIES
PERF SHEET	315A2502-7	(315A2502-7)	Identically per 14 CFR § 21.303, licensing agreement between The NORDAM Group, Inc., Repair Division and The Boeing Company, File No. 6-5920-08-DSH-14610R1, Dated 11/17/2008 DWG No: 315A2502 Rev: E Date: 10/01/1998 or later FAA-approved revisions	The Boeing Company	737-600 SERIES

-----End of Listing-----

NOTE: The procedures that have been accepted by the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to original parts used on type-certificated products, are also acceptable for incorporating the same minor changes on identical PMA replacement parts. The PMA holder must be able to show traceability relating to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, all subsequent minor design changes to the PMA parts must be submitted in a manner as determined by the ACO. Major design changes (reference 14 CFR §§ 21.93 and 21.97) to drawings and specifications are to be handled in the same manner as that for an original PMA.

NOTE: The procedures that have been accepted by the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to original parts used on type-certificated products, are also acceptable for incorporating the same minor changes on identical PMA replacement parts. The PMA holder must be able to show traceability relating to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, all subsequent minor design changes to the PMA parts must be submitted in a manner as determined by the ACO. Major design changes (reference 14 CFR §§ 21.93 and 21.97) to drawings and specifications are to be handled in the same manner as that for an original PMA.

NOTE: The procedures that have been accepted by the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to original articles used on type-certificated products, are also acceptable for incorporating the same minor changes on identical PMA replacement articles. The PMA holder must be able to show traceability relating to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, all subsequent minor design changes to the PMA articles must be submitted in a manner as determined by the ACO. Major design changes (reference 14 CFR §§ 21.93 and 21.97) to drawings and specifications are to be handled in the same manner as that for an original PMA.

----- End of Listing -----

NOTE: The procedures that have been accepted by the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office for minor changes to original articles used on type-certificated products, are also acceptable for incorporating the same minor changes on identical PMA replacement articles. The PMA holder must be able to show traceability relating to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract or termination of the licensing agreement or business relationship, all subsequent minor design changes to the PMA articles must be submitted in a manner as determined by the ACO. Major design changes (reference 14 CFR 21.93 and 21.97) to drawings and specifications are to be handled in the same manner as that for an original PMA.
